### Prior Authorization/Step Therapy/Quantity Limit

In order to ensure safe and appropriate use of certain medications, your prescription benefit program may have prior authorization, step therapy, and/or quantity limits for certain medications.

- **Prior authorization** requires you and your physician to obtain approval from Capital Rx prior to medication being dispensed.
- **Step therapy** is when your prescription benefit requires you to try another medication (usually a generic) prior to starting the medication your physician prescribed (usually a brand).
- **Quantity limits** only allow you to receive up to a maximum dosage or quantity for certain medications, based on clinically-approved prescribing guidelines.

Call customer service at **1-877-542-2779** to determine if your medication(s) are subject to prior authorization, step therapy, and/or quantity limit requirements.
