# The care and guidance you may need.

Keeping you and your family healthy is critical. And, as we continue to navigate the uncertainty around the COVID-19 pandemic, it's important to know there's a trusted place to get affordable care and support you may need, on your schedule.\*

CVS® HealthHUB™ is a neighborhood wellness destination with a professional care team, more health services and more wellness products, all in one place.

## CVS HealthHUB locations offer:

### Professional care team

Your professional care team includes nurse practitioners, physician assistants and pharmacists who work together to help you get the best care for your needs, whether you need treatment for a sudden illness like the flu or help managing a chronic condition like diabetes. They'll also share all the details of your visit with your doctor.

### Care concierge

Your care concierge will guide you every step of the way and help you connect to CVS HealthHUB services and products to support your total health.

### Extra assistance from the pharmacist

Your pharmacist can help you connect to the screenings, support tools and services you may need to get on the path to better health.

### Expanded health and wellness products

We've expanded our health and wellness products to include everything from self-care to durable medical equipment.
